

For Safe Reliable Power

NEWS

Ab jamana hi "SLIM LINE" Ka Model 2350B

APR -06

SMPS Power Plant 48/12.5A

Already over 2000
Systems Installed

Special Features

- Wide Input Voltage(150-275V)
- Modular Construction
- 19" Rack mountable or table top
- Hot Plug in
- Active Current Shearing
- Over 88% Efficiency

Application

- GSM/Micro cell sites
- Broad band / OFC
- Networking / Telecom
- SCADA Automation / Control

SLIM LINE

2u height

Protections

- High Voltage above 280V
- Battery Low Voltage (43V)
- Reverse Polarity
- Over Load / Short Circuit

Note:

Special panel with 9 LED's indicators
for charger status & Fault diagnostics
